2018 SOLAR RITUALITY AND EPHEMERIDES

A rhythmic and ritual coordination for a planetary Order

Here are gathered some indications in order to *harmonically coordinate* the common Work for a **planetary Order**,¹ "with united breath and unified rhythm" both among ourselves and with respect to the *signs of the Heavens*. The functionaries of this *planetary Order prototype*, according to what will seem "beautiful and useful" to everyone, might consider and follow them in their meditation or inner action.

In this way, we can be *subjectively* facilitated to 'keep up the pace' and maintain the *point of tension* as representatives, at our level of consciousness of "group of world servers", of the *seven hierarchical Ashrams*, that is, of the higher Septenaries or *systemic relationships*: as *vertices* of the 7+42 *Vortices* of the [Plan](#) – in the *here&now*, during each day and throughout the year (the two planetary Breaths).

Here are the essential points identified for the *rhythmic and ritual coordination* for a planetary Order:

- We are told that *the Purpose "cannot be understood until the Plan is followed"* (DNE II, 519), that "Purpose which the Masters know and serve", which can only be *asserted* in that unitary 'point of tension' which can be named "a central human Presence". At our level of "group of world servers", we can progressively 'understand' the Purpose by *following* the hierarchical Plan; one of the most direct and powerful ways to do it is by progressive identification (according to the rule "as if") with its **49 Fires, Vortices or Goals**.

In this respect, a *first systemic formulation* of the **49 Plan Goals** has emerged 'at the right time' in the last quarter of the twentieth century, which imitates the hierarchical Model and sows the prototype of the future *sevenfold Order* of the human Center, as well as the foundations of the new world Culture (see note 1).

- The more immediate task envisaged for the *prototype of a planetary human Order*, in order to support the evolutionary Purpose and Plan in view of the crucial Date of **2025**,² is

To assert the Plan of Love and Light

The will-to-good (to assert) directed to re-establish the Plan of Love and Light on Earth is the energy of this primary Formula.

The *plan of attestation* is the "place of Fire" (causal/egoic plane or higher mental), the "summit of the pyramid", the *solar plane* of the Ecliptic.

Thus, *as if* we were '**vertexes**' of such a planetary human Order, in order to *assert the Plan of Love and Light*, we identify ourselves with its **49 evolutionary Vortices**, in the "here and now" of Life or Being, each one in their own way - and yet as One Order: *cooperating in a coordinated way for the Common Good, we contribute to build in the three worlds the thought-Form of the 49 Fires Order and Plan, oriented to 2025* (see further the **7 central Formulas of the 7 ashrams and the 42 vertex Formulas**).

¹ For the reference text see: "[The Distant Goals](#)"; to pursue further its relationship with the Teaching by the Tibetan Master and the orientation to 2025, see the document the text [Asserting the Planetary Plan](#) in the [Documents](#) page of [TPS](#).

² **2025** is the central year (4.4: 4th year of the 4th septennium) of the current 49-year cycle of the 6th Initiation Masters (2001-2050). The 'emergence' of the Fourth Ray, as well as Their Decision about the Externalization of Hierarchy and next destiny of humanity are indicated for that time.

- According to the indications of the Teaching,³ this work of *ideal* composition at the *level of causes* (higher mental) must be constantly loved and held in the light through the *creative imagination*, as well as *vitalized* in the 'third eye', "with united breath and unified rhythm" with the higher *Septenaries* and in agreement with the heavenly cycles.

Following the Plan therefore involves, for us Humanity as well as for Hierarchy, following the planetary Rhythms or Breaths as well as the motion and psycho-geometries of the *solar Plan* set up on the Ecliptic:

- in the *lesser* planetary Breath (*day*), the vertices/functionaries can *accumulate energy at each rotation of the Planet*. They/we *assert the Plan of Love and Light* daily (unison rhythm), according to their/our chosen Ray ashram (one of the Seven horizontal Stars/axis in the Lambdoma) and Vortex/Goal: for the current year **5.4**,⁴ we can consider the Seeds and living Symbols of the Plan in addition to the *Formulas of assertion oriented to 2025*;⁵
- in the *greater* Breath of the Planet (*year*), the *most favorable Dates* for the entry and reception of cosmic and solar energies are the Cross of **solstices** and **equinoxes**; *new and full moons* are then fundamental for the precipitation at the level of Form⁶: in this planetary Heart Cross *the planetary Order asserts the Plan of Love and Light*;
- at the *systemic* level, the other precious Dates for these qualified spatial relationships between *man-planet-sun-cosmos* are the Directions drawn by the axis **Sun/Vulcan-Earth** (Soul-Personality) with respect to the other solar **Luminaries** or some primary **Stars/Constellations**, as well as the 'compound cycles' between Planets (mainly Their conjunctions). These Days are the most propitious to assimilate the **Seven Rays/Ashrams energies** and 'to carve Their paths' into humanity: *the seven ashrams of the Order "do not lose the dates" and orientate toward 2025*.⁷

⁴ **5.4** corresponds to the current 4th year of the 5th septennium of the first 49 cycle of this *hierarchical human prototype* (started in 1987 = Vortex/Goal **1.1**).

⁵ See the 7th and 8th chapters of the document [Asserting the Planetary Plan](#) in the [Documents](#) page of [TPS](#).

⁶ [Moon](#) = lunar Pitris or personality vehicles.
