Sun in Pisces

With the entry of the Sun in Pisces the last stage of the journey throughout the Zodiac of the astrological year 2017-18 begins. It is a month in which the water of Pisces is beneficial to assimilate and unite the various understandings and experiences of the ending year. It is a water which purifies and redeems in order to dissolve all separation and let us "return to the Father's House". It is the profound experience of being an integral part of the Universe and of assuming the responsibility to serve, working for the Infinite.

As last sign of the path, Pisces invites to a moment of synthesis on the inner journey, started in Aries 2017 with the guideline:

QUO VADIS MAN? – LET'S BUILD WITH COURAGE THE CIVILIZATION OF LIGHT

12 are the accompanying qualities to be lighted, experimented and assimilated:
to light, to forge, to recognize, to incarnate, to animate, to preserve, to evaluate, to fight, to direct, to radiate, to share, to universalize.

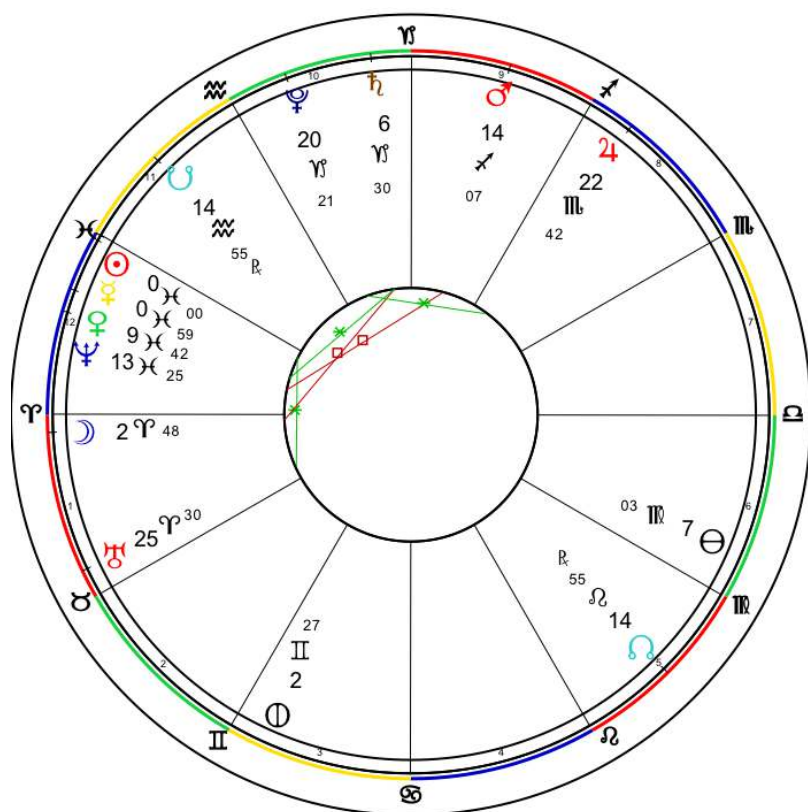

The questions to be elaborated for a synthesis could be:

- ✚ Quo vadis, man? Where did I go to during 2017-18 as an individual, where did we go to as a group?
- ✚ How did the work with the 12 qualities characterize and sustain us on the path?
- ✚ Which part of 'Civilization of Light' I/we was/were able to build?

Signs of Heaven in Pisces

On Febr. 18, Mercury enters in Pisces early in the morning, followed by the Sun at 6 pm. This meeting between the two luminaries of 2nd and 4th Ray encourages the opening to the subtle world. Venus in Pisces has prepared the way since Febr. 10, with the invitation to take an attitude of greater empathy and compassion. Neptune, who has been transiting this sign since 2011 (until 2025), as a guardian of the Infinite, is emphasizing the need to develop a deeper and more constant contact with the higher World.

At the moment of the Sun's entry in Pisces, Neptune is in a relationship of tension with Mars in Sagittarius. This is an aspect which may show a certain

confusion in relation to the activation of decisions or projects, or the need to include in the action also the vision of the invisible spheres.

As Venus, Mercury and the Sun advance in Pisces they meet Neptune, who further imbues them with the qualities of the sign, such as e.g. a greater inclusive vision, the development of the intuitive mind and a sense of being guided in life (for the precise moments of conjunction with Neptune, see the table of transits at the bottom).

It is interesting to note that in this month the air element is not represented in the zodiac (thinking in theoretical terms is less required), while water is emphasized by the presence of 5 planets; in addition to the four mentioned in Pisces, Jupiter is present in Scorpio. This means that special attention must be paid to the "feeling", to the improvement of higher sensitivity and regeneration.

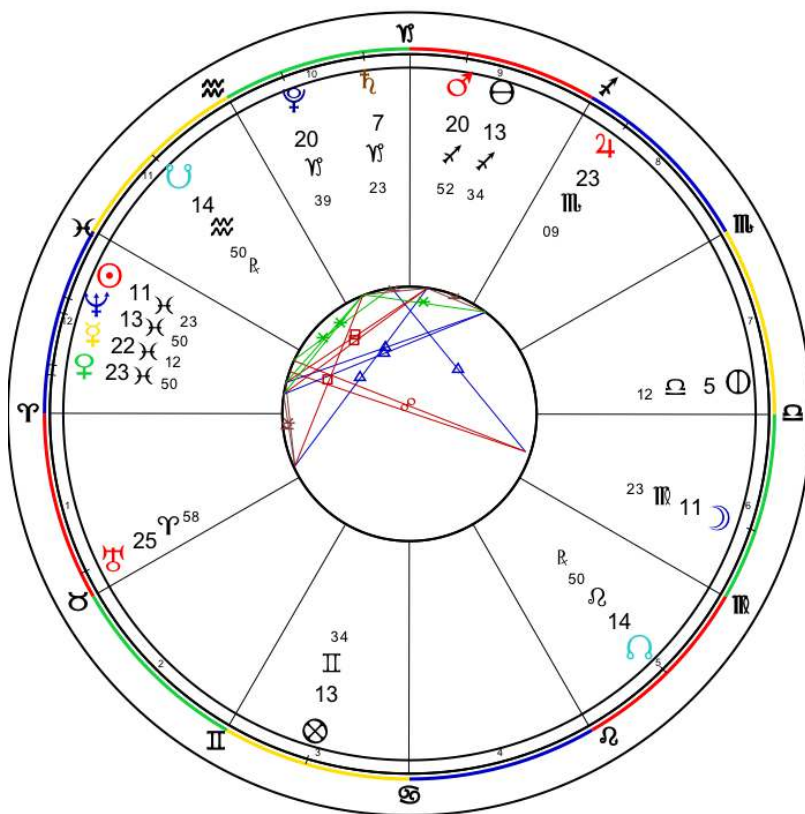

The assimilation of the specific Pisces energies of 2nd, 6th and 1st Ray is highly supported in this month thanks to the position of its rulers in the Zodiac. Neptune is "at home" in Pisces, Jupiter is in Scorpio and Pluto is in Capricorn, the latter two are therefore in a flowing relationship with Pisces. Thus the signs of Heaven invite us to intensify the work of inclusion and unification (2nd R.) together with a constant connection with the Higher World and with the Ideals (6th R.) to acquire the true Power (1st R.), which expresses the Will-to-Good, which is the Father's one.

Seed-Thought for the Sun in Pisces

The cosmic Breath of the Mother of the World is all-pervading. Verily, all is imbued with it. From infinitesimal grains of dust to immeasurable magnitudes, life moves and breathes by this Breath. How then not to cognize the power which moves the Universe! How not to ponder upon the essence of Being! Fathom the rhythm of cosmic energy and understand the rhythm of evolution. The essence of evolution is unalterable and is measured by the manifestation of Infinity.

Signs of Heaven at Fullmoon

The Fullmoon is powerful since all the planets are in mutual contact, thanks to the degrees in which they are found. Thus aspects are formed between:

- Sun and Neptune in Pisces opposite to the Moon in Virgo, in relation with Saturn in Capricornus:

To make the intuitions and the contact with the Infinite (donated to us by Pisces) fruitful in the earthly life, we need to have the right sense of realism and the ability to organize and plan (energy provided by Saturn and Virgo).

- Mercury conjunct Venus in Pisces in relation with Uranus in Aries, Jupiter in Scorpio, Mars in

Sagittarius and Pluto in Capricorn.

Mercury connects the higher and the lower, the "two fishes" so that the lower (personality) can be at the service of the higher (soul), allowing to purify / transform (Pluto) life with courage (Mars) and faith (Jupiter) to promote the birth of the Civilization of Light (Uranus).

Fullmoon Affirmation

- I universalize my being working for Infinity!
- May human consciousness recognize the Universe as its homeland!

Seed-Thought for the Newmoon

*Only the heart's thought about the Higher World provides an impenetrable armor.
Thus, let us be conscious of all that is most beautiful and needed on the lengthy journey.*

Significant Transits in the Pisces cycle

date	degree	movement	possible meaning (in an evolutionary perspective)
Following the movements of the fastest planets (Sun, Mercury, Venus, Mars) it can be seen how they are progressively switch on by the slower planets, month by month, forming in turn other fluid or tense relations. So the dance of the planets is created and men can dance with them using these energies for a richer life.
