

Signs of the Heavens 2019 - 1st quarter of cycle

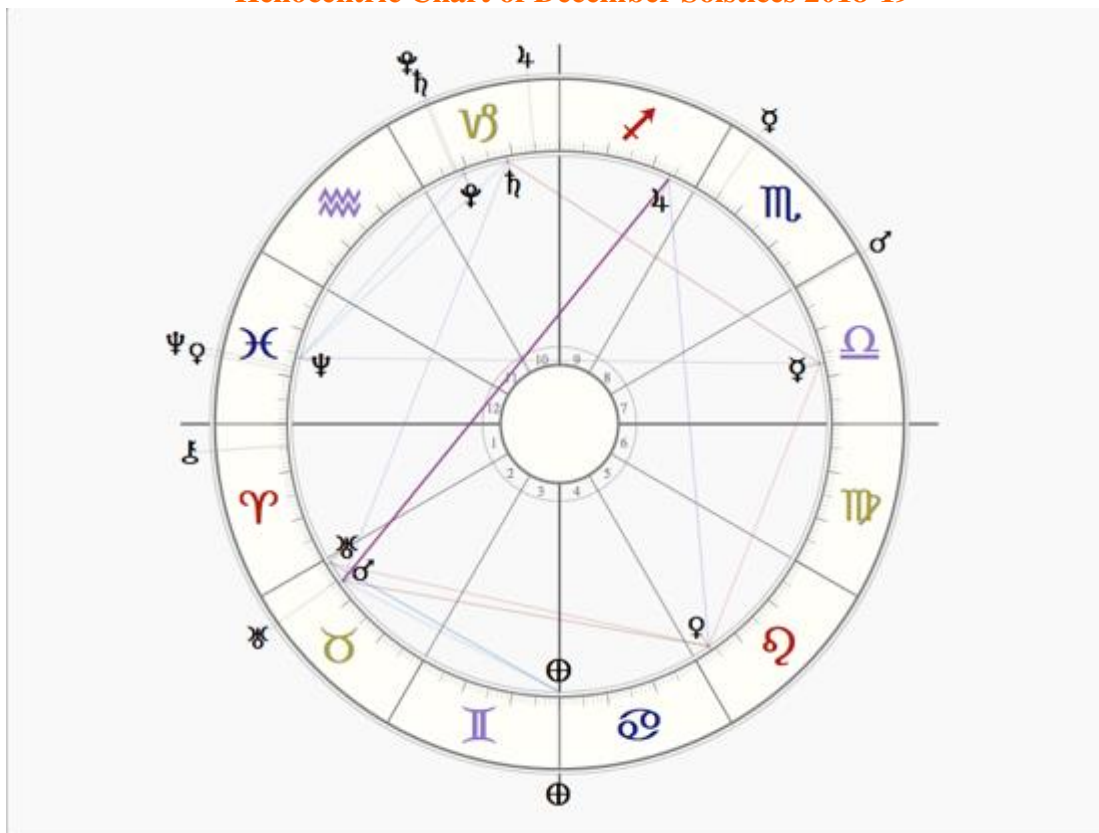

The year 2019 is the *eve year* of the *initiatory Date* 2020, when there will be some very powerful conjunctions indicating the *beginning of a new life*. Translating this in “signs of Heavens” (as we can see in the chart comparing the celestial configurations of the two December Solstices 2018 and 2019, from October 2019), there will be all the three Luminaries of the *Rays of Aspect* in **Capricorn**, *the Vector of the supernal Light*.¹

- **Pluto** ([1st Ray of Will or Power](#))
- **Jupiter** ([2nd Ray of Love-Wisdom](#))
- **Saturn** ([3rd Ray of Creative Intelligence](#)).²

The supernal Light of the Summit, received and transmitted by the *Triangle of Solar Consciousness*, draws us to Cosmos and urges the restoration of the Law of the Heaven on Earth: Power (Pluto), Love (Jupiter) and Light (Saturn) will be united “to restore the Plan on Earth”, to set up a **New Solar Culture**.

Moreover, the deflagrating conjunction between the *solar Planner* (3rd Ray) and the *Destroyer for evolution* (1st Ray) in January 2020, an extremely “definitive” and “propulsive” alignment,³ “will clear the field” for the long-awaited conjunction **Jupiter and Saturn in Aquarius** (5th R.) in November 2020 (the first since 1404!) which will be a decisive step for the entry of human Consciousness into the new Era.

Heliocentric Chart of December Solstices 2018-19

Inner Wheel: 21 December 2018 h. 22.23 UHT - Outer Wheel: 22 December 2019 h. 4.21

Therefore, year 2019 is the [cycle](#) of advent and ascent to such a *peak* of tension. During it, the evolution of consciousness is sustained, at a deeper and more causal level (heliocentric tropical perspective⁴), by the *solar Master Jupiter*, already immersed in the dynamic fire of [Sagittarius](#) (4th – 5th – 6th Ray) till [19th October 2019](#) (geocentrically till [2nd December](#)): the flame of His spatial Love leads the Heart of Humanity to fervently long for more elevated expansions and visions.

Sagittarius, the great Master of enthusiastic wisdom (it is in fact ruled by the jovial Jupiter), is the only Sign to transmit both uneven and even Rays (**4th – 5th – 6th Rays**), indicating the *Direction towards synthesis* which awaits the Disciple–Humanity’s consciousness before *transfiguration*, when we will be Masters or *initiated*⁵ to the Joy of the great Service for the planetary Evolution:

- the mastery of conflict through harmonic solutions (the [Fourth Ray](#)),
- the Science of the constructive force of Thought (the [Fifth Ray of Mind and Knowledge](#)) and
- the Desire to serve the evolutionary Fire that “moves” all from the World of Ideas (the [Sixth Ray of abstract Idealism and Devotion](#))

give Humanity the power to “aim” to the *Fifth Reign of the Gods*, to the spiritual Hierarchy that rules and takes care of our Planet.

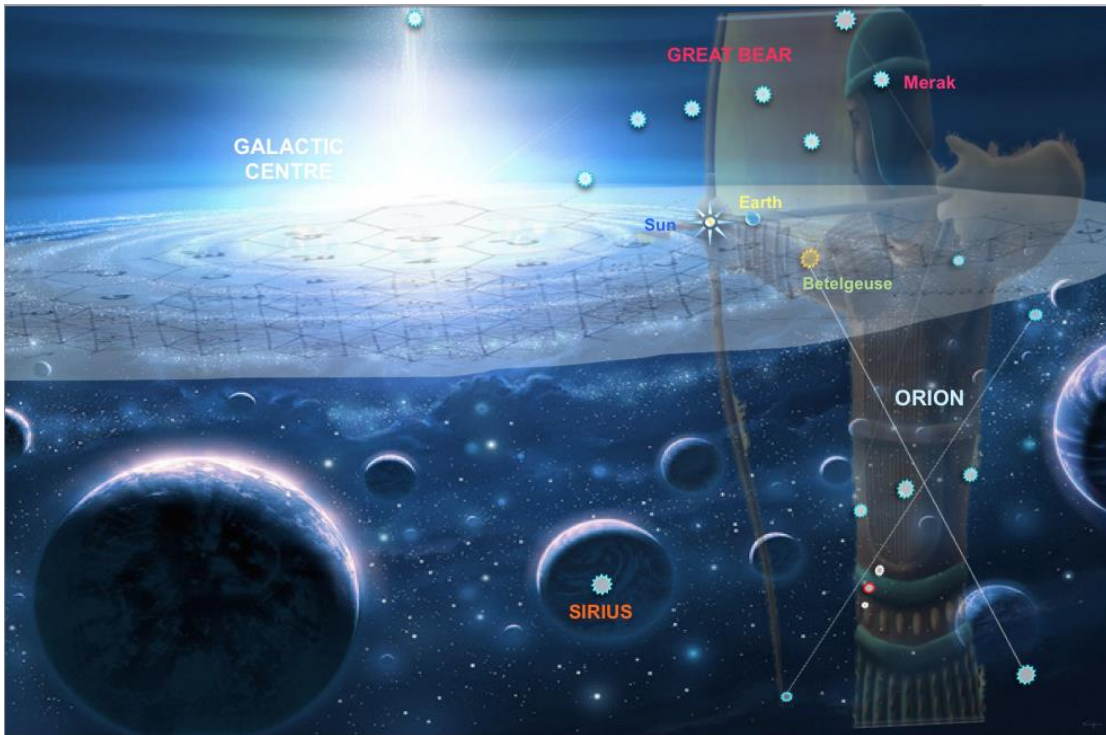

The other remarkable fact of this solstice beginning 2018/19 is the proximity between the *Hierophant to the solar Mysteries Uranus* (the [Seventh Ray of Order and ceremonial Magic](#)) and the *Warrior Mars* (6th Ray) at the incipit of **Taurus** (4th Ray), which impresses into Matter and Form the overwhelming force of the *Divine Incentive*, of the *Light of Life*, that *rhythmic motion of Fire* which is the “First Cause” of any work and revelation. Uranus will be in Taurus for *seven years* till the fateful year **2025** (see [Uranus in Taurus: the Seven steps toward 2025](#)), to initiate to the *Cult of Light (Cult-Ure)*.

Moreover, the trine (120°) between Uranus and Saturn in *earth* Signs enhances the ordered planning (3rd-7th R.) and the rhythmic and intelligent reorganization (7th-3rd) of this *igneous impression*, while the squares to the two “updating factors” or *fast* Luminaries (the *winged God Mercury* (4th R.) from Libra (3rd R.) and the Goddess of golden Construction **Venus** (5th R.) from **Leo** (1st – 5th R.)) intensify such a work of reconstruction oriented to *restore the hierarchical Plan on Earth*.⁶

Another relevant trine between **Jupiter** and **Uranus**, Luminaries of “beneficial accomplishment”, will seal the closing of the year at the next 2019 solstice. On [5th May](#), Jupiter will be also perfectly squared to **Neptune** (6th R) in **Pisces** (2nd-6th R.), the other *solar Mother*, and will teach the difficult yet saving fusion between fire and water (between ascending and descending motions, between mind and desire).

The **Earth** (3rd R: Humanity), at the Gate of **Cancer** (3rd-7th, the Sign of the Birth into a Form) in a beautiful sextile (60°) to Mars and Uranus, benefits from all these ascending and effectual forces, and elevates its vibration by reorganising the evolutionary resources. It keeps its ‘bow’ steadily oriented toward the *Gate of the Gods*, illuminated by the central lighthouse, the **Sun/Vulcan** (2nd-1st R.: the real Government) on the threshold of **Capricorn** (1st-3rd-7th R.).

As often mentioned in these readings of the Heaven, this planetary/solar Direction of the *solstices*, consecrated to the axis **Capricorn-Cancer**, points to the **galactic Center** (every roughly 13.000 years!) among the stars of the Archer on one side, and the *Two Origins* **Sirius** and **Orion** on the other side, among the stars of Gemini, the celestial Isis and Osiris.

At the solstices, the Earth is in the point of the orbit where the spatial “vertical” plane containing its **polar axis** (its “spine”), and projected upon the solar “horizontal” plane of the Ecliptic, intersects the Sun: analogically, for **Astrosophy** (that fuses esoteric Astrology and Astronomy), this *is the day when solar Will and that of our planetary Logos join together*. At present, this Will is pointed or oriented to/by the Star **Polaris**, which is the current cosmic pivot and fire that *rules* the terrestrial “point of view”, the entire apparent Vault of heaven according to *equatorial coordinates* (see [video](#)): at the solstices, It ‘abstracts’ the planetary life towards the systemic Pole, *the North Pole of the Ecliptic* in the sumptuous constellation of the **Dragon**.

The initial and initiatory Cornerstone of the **December solstice**, the impulse that gives life, quality and appearance to the entire development of the annual cycle, is therefore the very cosmic Direction which *rightly orientates* our vision towards the *supernal Light* of the Distant Worlds, towards the subtler and fiery realities of our being and existing.

*

In the present first 49 years-Cycle (1987-2035) dedicated to impress the Goals of the evolutionary Plan into the general mentality (see note 6), 2019 is the 5th year of the 5th septenate or **5.5 Goal – New Culture and Civilization**, hence one of the Seven main Distant Goals, and the fiery *vortex* which essentially will rule the next annual Sowing of TPS:⁷

Here is the synthetic view of the active energies which will nourish this *causal Seed* consecrated to **Venus**, the elder Brother and *Light-bringer* to our Earth⁸:

VORTEXES/YEAR S OF THE 5TH SEPTENNium	JUPITER-SATURN in the ZODIAC	URANUS- NEPTUNE in the ZODIAC	PLANETARY ASPECTS (Deep Cycles)
5.5 - 2019 “New Culture. New Civilization” Venus	Jupiter in Sagittarius 2 - Capricorn 2 (New Year’s Day of Jupiter: 19th October) Saturn in Capricorn 3-6 (at its center on 27 th April)	Uranus in Taurus 1-2 Neptune in Pisces 5	- 1st Square between Jupiter and Neptune (5/5) - 1st Trine between Jupiter and Uranus (21/12)

And, as usual, in order to follow knowingly the *celestial Plan*, we try to translate these “signs of the Heavens” into a *synthetic formulation*, according to the *four quarters of cycle* or annual cycle *quadrants*, in order to orientate the “squaring of the circle” of the celestial causal energies into terrestrial effectual forces.

For each of these “four world angles” of the *cardinal Cross* of the planetary Breath (Solstices and Equinoxes), the Will of the central Heart of our planetary Logos irradiates an impulse or a beat which sustains the Rhythm of planetary life and evolution.

Hence, here are ‘inflected’ the four possible synthetic Formulas, impressed by the solar Centre (the common Heart or the *Sun* of Humanity) to assert the *Cult of Light* (Goal 5.5 of the Plan) on the Earth:

December Solstice

LET THE FIRE OF UNITY BE THE CENTRE OF THE NEW CULTURE

March Equinox

LET CELESTIAL WISDOM BE THE FORCE OF THE NEW CULTURE

June solstice

LET THE POWER OF CHRIST BE THE LIGHT OF THE NEW CULTURE

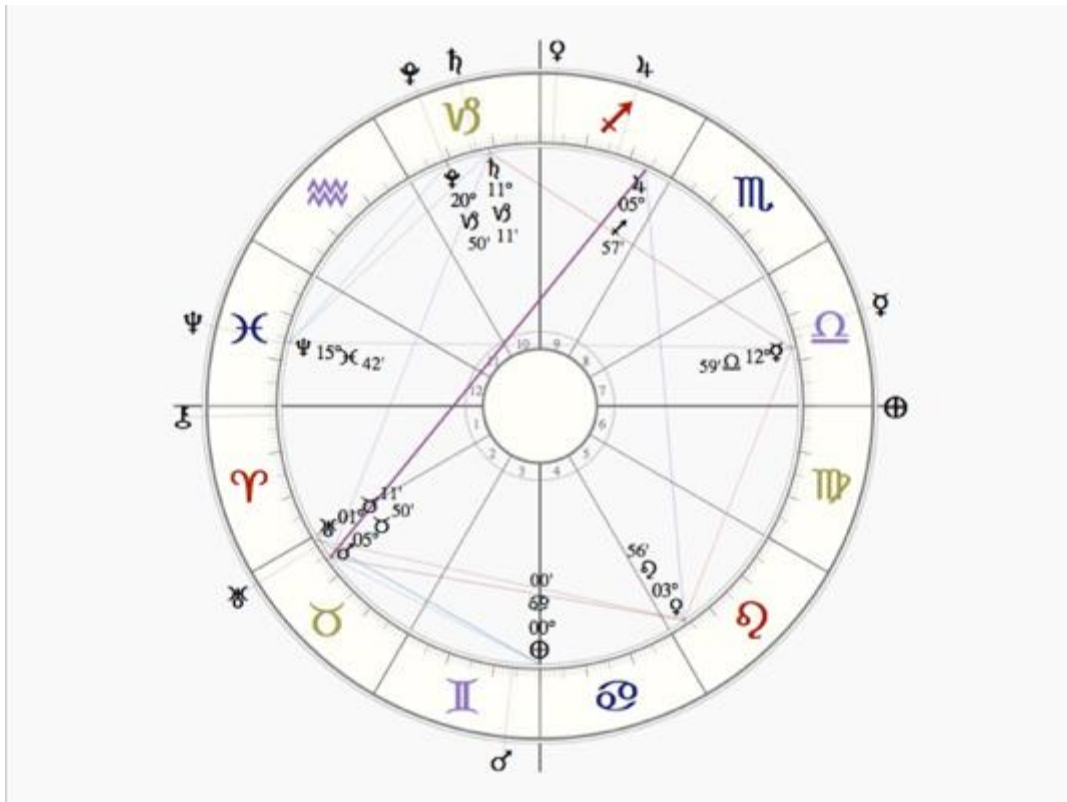

Autumn equinox

LET THE REALITY OF BEING THE GOAL OF THE NEW CULTURE

*

In particular, here are the Seven Formulas of the first impulse and season of 2019 cycle:

Tropical heliocentric Heaven – 1st Quarter 2019

Inner Wheel: 21 December 2018 h. 22.23 UHT - Outer Wheel: 20 March 2019 h. 21.58

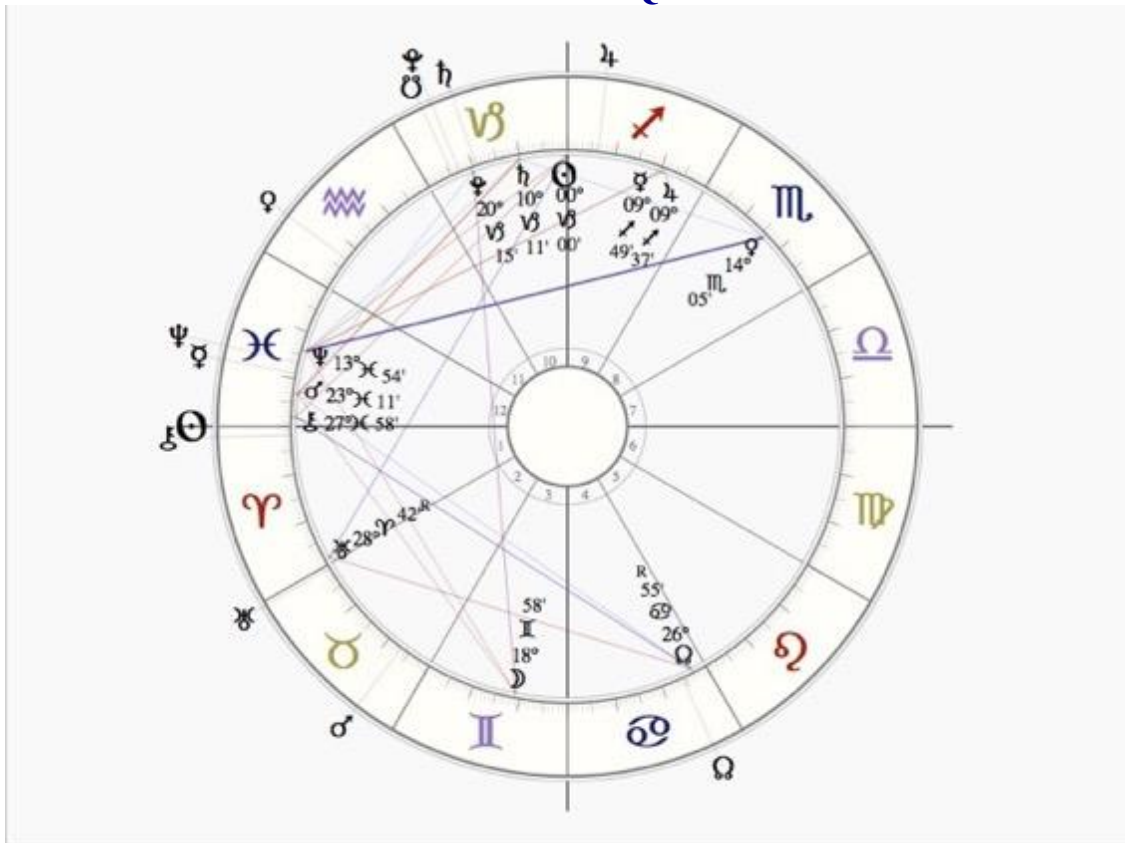

- 1) Sun/Vulcan in Capricorn - Earth in Cancer:
LET THE FIRE OF UNITY BE THE CENTER OF THE NEW CULTURE
- 2) Jupiter in Sagittarius:
Let the flame of love reveal to hearts the Truths of Heaven
- 3) Saturn in Capricorn:
Let the creative Intelligence light on the centers of the planetary Plan
- 4) Mercury in Libra:
Let the law of Harmony balance the exchanges between the kingdoms
- 5) Venus in Leo:
Let the strength of the enlightened Mind manifest the new solar Civilization
- 6) Neptune in Pisces:
Let the higher vision inspires the ideal of a planetary Order
- 7) Uranus in Taurus:
Let the rhythmic motion of Fire raise the vibration of Humanity

These Seven *active Formulas*⁹ tend to *fix*, from the causal plane, the *Directions* impressed by the Building Rays of the solar Plan, those Sounds and Lights that rule the solar evolution of the Planet and Humanity:

At the reciprocal *geocentric* level, concerning precipitation of the energies on the Planet down to the individual level,

Geocentric Heaven - 1st Quarter 2019

Inner Wheel: 21 December 2018 h. 22.23 UHT - Outer Wheel: 20 March 2019 h. 21.58

the *apparent Sun* (analogically the “Personality” of Humanity) enters the threshold of the Gods (Capricorn) supported by the propulsive Fire of **Uranus** (in trine 120°), retrograde in “Its Sign” **Aries** till 6th March 2019: therefore, in this first quarter of round, It receives the last charge drive of the revolutionary thrust toward Reorganization that, when free again to act (direct motion), it will ratify the effective start of the *Reconstruction* process with Its definitive return into **Taurus** (Uranus was previously in this Sign from 15th May to 6th November 2018).

The Fire of Wisdom, the keynote of the year, is here reinforced by the presence of both **Jupiter** and **Mercury** in **Sagittarius**, urged by the square with **Neptune** from *Pisces*, the God of commonality, recently challenged by the egocentric and hot-blooded **Mars**: the “rough waters” of the emotional reactions have to be channelled and soothed by the impersonal vision of Compassion, that “feels” the common Good and drives consciousness towards it. The other forces at stake also sustain this process of “evaporation” and sublimation, too (trine, sextiles and quintiles among the Luminaries in

Scorpio, Capricorn and Pisces), obliging the **Moon**¹⁰, squared from *Gemini* (which transmits the pure 2nd R.), to give up to the magnet of the *right relationships*, to the will-to-good irradiated by the Sun-Soul at the Summit.

*Let us work to the construction of the new Thought
in order to realize the solar Cult of the Good*

² See the importance of this transit of Saturn in Capricorn in [Signs of the Heavens 2018](#).

³ This conjunction between [Saturn](#) (3rd R) and [Pluto](#) (1st R.) in **Capricorn** (1st-3rd-7th R.) will give a powerful acceleration to the process of *initiation of the human Group*, ‘fixing’ (Eath Sign) their previous alignment in [Aquarius](#) in late eighteenth century (which saw both the American War of Independence and the French Revolution: *Liberté-Egalité-Fraternité - Liberty, Equality and Fraternity*).

⁴ The perspective of these *readings of the Heavens* here is both **heliocentric**, recognized as the Heaven of *general* Causes and Effects, and **geocentric**, the Heaven of *detailed* causes and effects.

Being both *tropical* perspectives, they concern the celestial energies *in relation* to the Planet and Humanity. These *causal* energies are transmitted by the zodiacal Wheel of the 12 **Signs**, the *12 Archetypes of the evolution of Consciousness*, corresponding yet not coincident, at the *phenomenal* level, with their relative astronomical or sidereal **Constellations**.

⁵ The word *Initiation* comes from two Latin words, *in*, into; and *ire*, to go; therefore, *the making of a beginning*, or the entrance into something. It posits, in its widest sense, in the case we are studying, an entrance into the spiritual life, or into a fresh stage in that life. It is the first step, and the succeeding steps, upon the Path of Holiness. Literally, therefore, a man who has taken the **first initiation** is one who has taken the first step into the spiritual kingdom, having passed out of the definitely human kingdom into the superhuman. Just as he passed out of the animal kingdom into the human at individualization, so he has entered upon the life of the spirit, and for the first time has the right to be called a "spiritual man" in the technical significance of the word. He is entering upon the fifth or final stage in our present fivefold evolution [the “seed of spirit” or *monad* expresses itself through five planes, from the 3rd atmic level to the 7th physical level, and evolves its “vehicles” through the mineral, vegetable, animal, human and finally spiritual reigns]. Having groped his way through the Hall of Ignorance during many ages, and having gone to school in the Hall of Learning, he is now entering into the university, or the Hall of Wisdom. When he has passed through that school he will graduate with his degree as a Master of Compassion.” (A. A. Bailey, *Initiation Human and Solar*, Lucis Collection, p. 10).

⁶ A *first formulation* of this evolutionary Plan in *49 Goals* is in the text “[The Distant Goals – compendium 2017](#)” by Enzo Savoini and presented in the text [Asserting the Planetary Plan](#) in the 3rd section of the page [Documents](#). For further information, please [contact](#) TPS.

⁷ See annual documents on the “*Solar Rituality*” in the 7th section “Order” of the page [Documents](#) of TPS.

⁸ By *causal* level the esoteric tradition indicates the abstract mental plane (higher manas), that extremely 'subtle' vibration or energy/substance of which the *human Soul* or *egoic body and lotus* are constituted, that *group consciousness* able to recognize through *Wisdom* the common Good.

The heliocentric perspective, *as if* the Heart of Humanity was *already* at the Center, that is in the Sun/Soul leading the Planet, is therefore associated with this *plane of Causes*.

The numbers after the Zodiac signs refer to the sector/s of transit of the Luminary: the 30° of each Sign are sorted according the Seven Rays and qualities of the Esoteric Teaching (5° for each six Rays, with the central fourth corresponding to the bisector. In this way, the position of the Luminary in the Sign can be interpreted in a more precise and detailed way).

⁹ The *Mother of Form*, receptive and generative, which together with the *Sun* actually ‘veils’ other Planets or energies for Esoteric Astrology. On the human level, It stays for the vehicles or bodies of the personality built by the lunar *pitris*.
