The [Workshop of Thought of TPS](#), oriented to nourishing the primary Idea of a *Planetary Order Prototype* intensifies the energy of subjective collaboration in order to perfect and clarify the vision of the new Ideals, those *Formulations* at the level of the abstract mind that *connect* Ideas to their precipitations or Forms: it builds them in itself and through itself, and in this way it anchors them in the *causal* matrix of the human realm.

This year is really an ideal year, the most important of the *seven steps towards 2025*, as it presents a very bright and ardent 'heart': the conjunction between Jupiter and Saturn in Aquarius which will close, occurring at the heliocentric level on November 2 (at the geocentric level it will be 21 December 2020), a year full of transcendent and initiatory flashes/conjunctions.

The first is between [Saturn](#) ([Third Ray of Creative Intelligence](#)) and [Pluto](#) ([First Ray of Will/Power](#), vicar of [Sun/Vulcan](#) at the Center): Their exact conjunction (the last in the same Sign was in 1518!) is on 10 January 2020, in the very Full moon of [Capricorn](#) (1st, 3rd and 7th Rays).

“This extraordinary and disruptive conjunction recalls the climate of the *Renaissance* and it follows the more recent one, in the eighteenth century in *Aquarius*, the driving force behind both the American War of Independence and the French Revolution”: *building new ideals* is to win the Battle against the crystallization and the bad management of the Blue Planet, our Home.

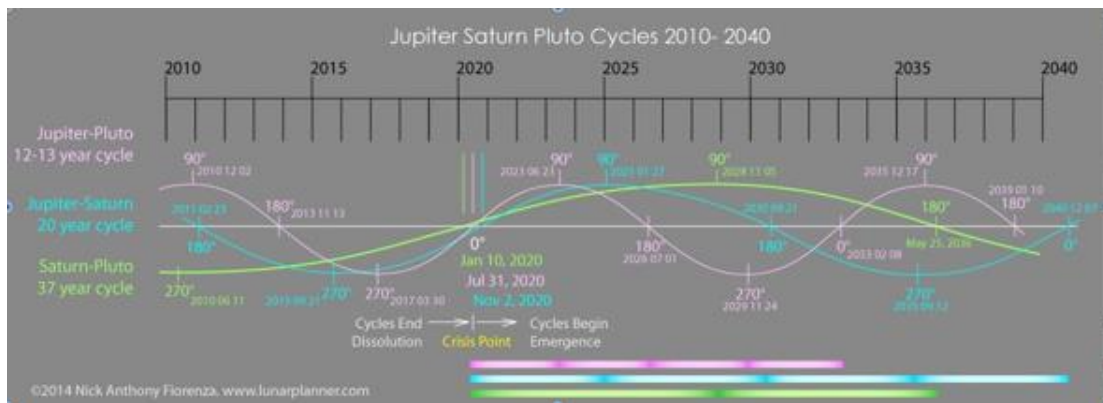

The wise and benevolent [Jupiter](#) ([Second Ray of Love-Wisdom](#)) is also in the Sign of *Light supernal*: the *Triad of the Three Rays of Aspect* (1. Vulcan/Pluto, 2. Jupiter and 3. Saturn) *shines in the Summit*, and great initiatory possibilities open up to the planetary and human consciousness.

This first celestial event will be followed, on [July 31](#), by the conjunction, always in the 6th quality (20°-25°) of *Capricorn*, between **Jupiter** and **Pluto**: the solar Wisdom through its conjunctions pours out in depth doses and lessons of *Love*, essence and Goal of the evolutionary Plan of this *second* solar System, thus celebrating the Glory of the *Heart of the Sun*, the *subjective reality* of Life

Jupiter and Pluto in *Capricorn*, close in the embrace of the supernal Light, reign over the visible and invisible worlds, over the life that is born and expands in a multiplicity of forms and over those forms that lose their material consistency to be transfigured into pure Light.

Jupiter and Pluto in conjunction in Capricorn initiate us into the transfiguring power of Love.

Here is the wave created by Their Cycles, including Saturn which is dominant in Capricorn, that shows how 2020 constitutes a fundamental “crisis point”, that is, a point where there are opportunities for a “choice” of new directions:

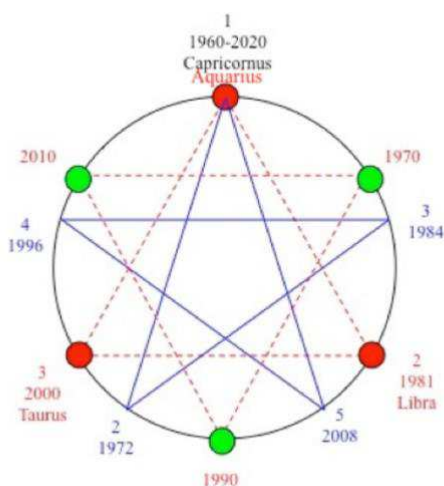

“Saturn, through which energy flows from Leo [coming from the Great Bear], via Shamballa, to Humanity, governs two decanates in Capricorn. Hence its extreme potency today in the triangle of Humanity. Saturn breaks up existing conditions by the force of its energy impact, thus enabling the influence of Mercury [which rules the forth human hierarchy] to be more fully expressed. The vision can then be intuitively perceived when obstructions have been removed”. (A. A. Bailey, A Treatise on the Seven Rays, vol. III – Esoteric Astrology, p. 442)

Everything, as we have seen, points to the conjunction of November 2 between **Jupiter**, passed in *Aquarius* on the 12th of October 2020, and **Saturn** entered on the 3rd of September 2020, their first conjunction in *Aquarius* after the last one in 1404, now decidedly at the turn of, and in support of, the dawning Age of brotherhood and universality.

Let us remember the power of the event as Jupiter and Saturn, the solar Love and Light spiralling around the central Will of Sun/Vulcan, are the Builders of the solar Plan, and the cyclical breath of Their upper Triangle (1st – 2nd – 3rd R.) reveals the psycho-geometries of *solar Consciousness*.

Jupiter-Saturn Cycle 1961-2020

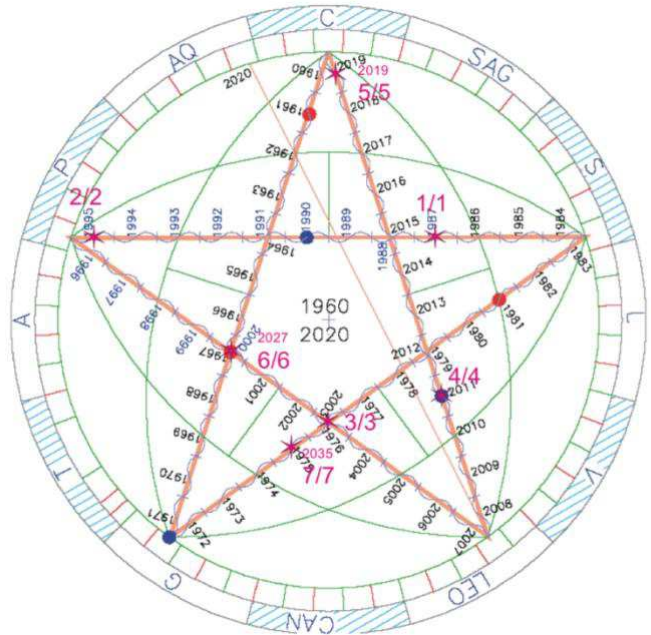

Their combined Cycle traces and sets up the *Plan of solar Consciousness* according to the sacred [psycho geometries](#) of the 6 and 5-pointed Stars, which are formed every 60 years: 60 years in fact include 3 conjunctions between Jupiter and Saturn every 20 years approximately, and these three outline in the circle of the Zodiac the *Triangle*, the first surface (while the oppositions draw another symmetrical triangle).

2020 is therefore the year of the closure, in the Sign of Aquarius, of the initiatory Star of Jupiter-Saturn started in 1961 with their conjunction in Capricorn, the 34th Star of 60 years since the First Advent of Christ.

The new ideals are built according to this basic quality: infinite service and service to the infinite, universal brotherhood, golden cooperation, clarification and distribution of knowledge.

The exchange between *Capricorn* and *Aquarius*, as a new quality of the impulse *informing the solar Plan*, appears therefore emblematic: having based the Construction of the new Culture on the *Institute of the Heart* (Goal 5.2) and on the *art of composing the causes* (Goal 5.4) what before was simply a horizon towards which to tend (*Aquarius*), contemplated from the Summit (*Capricorn*) is now the Service ground from which to start, on which to rest “hands and feet” and [build the human and planetary Temple](#).

The *Air* Element of this conjunction in *Aquarius* is the substantial quality bearing Expansion, and it is new compared to the *Earth* one (of *Capricorn-Taurus-Virgo*) of the last 180 years, whose key word is Contact. Stars consecrated to the Summit in *Aquarius* will therefore begin in 2020, 2080, 2139 and in 2199, and these evolutionary impulses will guide Humanity towards *universal Service through group consciousness*.

And if,

"The sign of the Messiah's coming is the conjunction of Jupiter and Saturn in the sign Pisces ... Kepler states as a positive fact that at the moment of the Incarnation (of Christ) all the planets were in conjunction in the sign Pisces ... the constellation of the Messiah." (From the *Secret Doctrine*, in *Esoteric Astrology*, p 661, 668, 678)

then *the sign of the coming of the Maitreya can be recognized in the conjunction of Saturn and Jupiter in Aquarius* (one of the 4 from here to 2200).

To complete the annual picture, let's note that [Mercury \(Fourth Ray of Harmony through Conflict\)](#), at the beginning of 2020 is in His Sign (of hierarchical regency), *Scorpio* (4th Ray), harmonizing conflicts in order to bring out the supreme Model of the Beauty of Being, of unconditional Love, of the “splendour of Truth”, of the *Fourth Human Hierarchy* (associated with *Scorpio* and *Mercury*). Here *Mercury* exerts its most elusive quality, that is the ability to connect seemingly dissimilar aspects of reality and merge them into harmonious radiance: the Idea, which is intimately One and gathers around itself the Many, is radiated from the inside, taking care that the essence of the inherent Unity is not lost and the formal (symmetrical) lines of thought are permanently implanted in the new form, and New Culture, which is about to be born.

At the very beginning of this year **5.6**, [Venus, Fifth Ray of Mind and Concrete Knowledge](#), and [Neptune, Sixth Ray of abstract Idealism and Devotion](#), are magically paired in the 5th quality of *Pisces* (2nd-6th Rays) from where they convey the flows of saving force into acts of liberation,

offering a clear, very deep (cosmic) and unitary vision of that “Father’s House” or higher Real which [Uranus, Seventh Ray of Ceremonial Order and Magic](#), from [Taurus](#) and in a beautiful trine to the *triadic Summit*, precipitates and consolidates the *new ideals of the solar Culture*.

To prepare us to receive the *supernal Light* of such initiatory alignments, let us identify ourselves with the Model of the solar Plan by radiating the seven causal formulas of the *first impulse and season of the 2020 cycle*:

1) Sun/Vulcan in Capricorn - Earth in Cancer:

Let the celestial Trinity initiate to solar Brotherhood

2) Jupiter in Capricorn:

Solar love draws consciousness to the Great Service

3) Saturn in Capricorn:

The Light of Purpose irradiates Freedom of Being

4) Mercury in Scorpio:

Harmony is the crown of Victory

5) Venus in Pisces:

The Christic Wisdom inspires power of salvation

6) Neptune in Pisces:

The Communion of Hearts guards the Fire of the True

7) Uranus in Taurus:

The sacred Work of the Builders asserts the magic of Unity

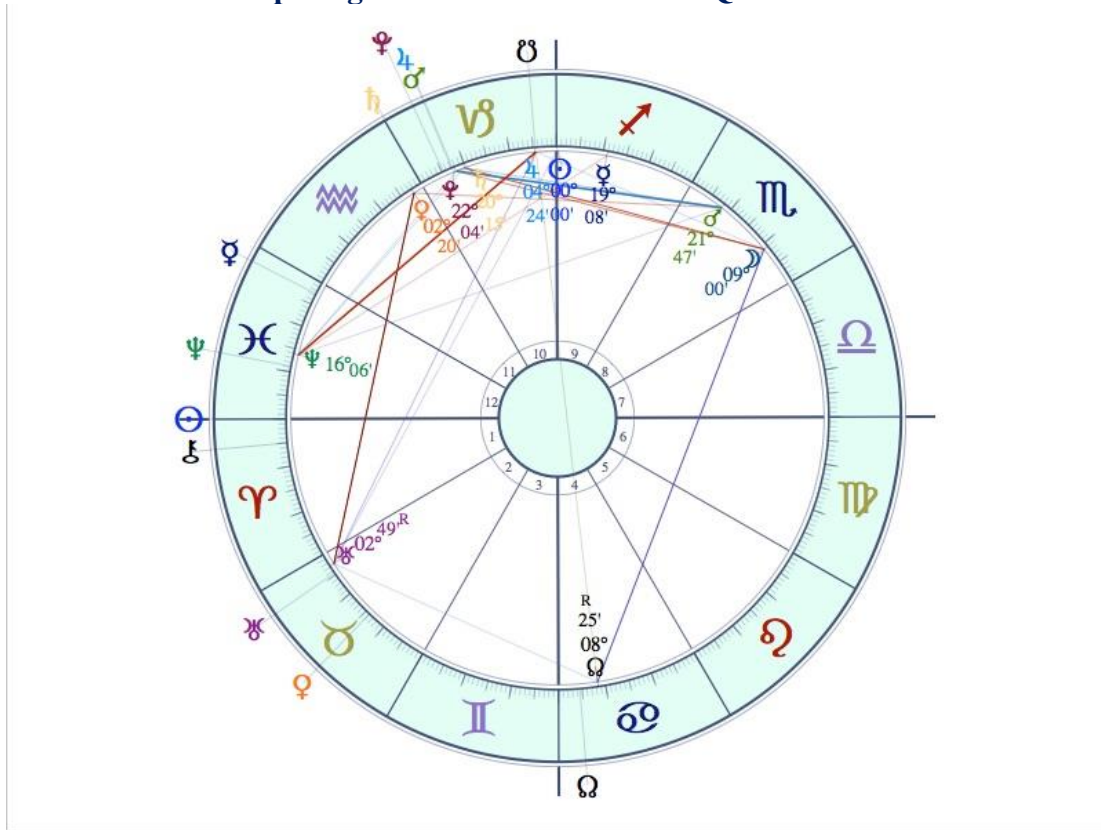

This Septenary of *Active Formulas* tends to *fix*, from the mental causal plane, the *Directions* impressed by the Rays Builders of the Solar Plan, those Sounds and Lights that rule the solar evolution of the Planet and Humanity.

May we identify ourselves, *as if*, to the best of our ability, with the *solar Sources of events* and follow their evolutionary dictates.

At the inverse *geocentric* level, the one pertinent to the precipitation of energies on the Planet up to the individual level,

To the commentary of the Signs of the heliocentric Heaven, some brief notes can be added:

- At the solstice the Sun, at the threshold of the *Door of the Gods*, raises and illuminates human consciousness so that it can absorb the powerful influence of a *stellium* in *Capricorn*. This solstice is particularly important because it falls within the [impact week](#) of the New Group of World Servers (December 21-28), which will join *subjectively* in [a minute of global silence](#); moreover, there will be a further peak of intensity at the annular eclipse of the Sun (new moon on 26 December): it is indeed an initiatory year and of *powerful unity in spirit*;
- Mars and [Moon](#)₃ in *Scorpio* (in collaboration with the *Major Luminaries* in *Capricorn*) indicate the constructive ardor that will be available to "men of good will" to overcome the deceptions of personal desire and feeling, the cause of separateness;
- Venus, the procreative mind of forms, very powerful in *Aquarius* (5th R.), in square to Uranus and in quintile (72°) to Mars, will have to orient itself to the Service of brotherly Love if it wants to *build the new and very ancient ideals of the Good, the Beautiful and the True*.

*

*Let us guard the flame of Truth
to build the communion of Hearts.*

1 By *causal* level the esoteric tradition indicates the abstract mental plane (*higher manas*), that extremely ‘subtle’ vibration or energy/substance of which the *human Soul* or *egoic body* and lotus are constituted, that *group consciousness* able to recognize through *Wisdom* the common Good.

The *heliocentric* perspective, *as if* the Heart of Humanity was *already* at the Center, that is in the Sun/Soul leading the Planet, is therefore associated with this *plane of Causes*, and the astrological position of the Earth can provide indications on the ‘divine projection’ of the One Humanity (*Monad*).
