2021 SOLAR RITUALITY AND EPHEMERIDES

A rhythmic and ritual coordination and sowing for a planetary Order

The TPS *solar Sowing* of "Ideas, Formulas and Forms for a new Culture and Civilization" intends to "carve a new path" of collective creative imagination "with a united breath and unified rhythm" with the cyclic pulsations of the higher Creators, the planetary, solar and cosmic Entities: the *conscious Dream* of a **New Culture and Civilization**, as a manifestation on Earth of the evolutionary Plan and of a *new human planetary Order*.¹

By working we learn to work, and in this Workshop of spatial Thought we learn together to build more and more *knowingly* Harmonic Thought-forms, as a result of a *right* or *heavenly* way of being and existing, in order to set up a better Future and to progressively release our humanity from its lower trammels.

Humanity can and has to spread, in an impersonal and disinterested way, *Seeds* or *Ideas* capable of fertilizing consciousness making it resound to infinity:

"Culture is a treasure of consciousness, therefore the field of the sowing of the new Thought is the human consciousness ... It is a vast field like Heaven: no one knows its boundaries. Thus the seeds to be spread have no number or form ... Only with formless seeds an infinite field can be cultivated. And the soil of human consciousness is ready to welcome them: many signs prove it, both above and below, and sowing cannot be deferred". (E. Savoini)

The creative power of Thought and the *subtle* Sowing are, in hindsight, a reality proven by the concrete experience of every day, whether it is realized or not:

*It is astonishing that even recently the transmission of pictures was considered unrealizable. But now images are already transmitted over great distances; the word thunders through many spheres, even further than people imagine. The Fiery Worlds likewise have no impediments in transmission and communication. One should not be astonished at such fiery potencies when even the material world has already mastered the crude forms of the same possibilities. And how many achievements are knocking upon the doors of the human heart!*²

*

In conformity between Above and Below, the seeds for a New Culture are directed and oriented by and towards the Powers and psycho-geometries of the solar and cosmic System, in order to set up, in imitation of the builders of the megalithic alignments and sacred temples, some *vital channels for the beneficial accomplishment of the Work*.

These are not sacred temples or places in stone, yet these *orientations to Heaven* serve the same function, as *qualified space resonators*, but informed by subtler matter: by the fiery, creative and evolutionary Thinking of the *heavenly Formulators*, whose Sounds and Directions ignite innumerable other fires, centers, beginnings, orienting the 'crops' and seeds of the New.

² [World of Fire I § 603](#), Agni Yoga Collection.

Anchoring the foundations in the *Elysian Fields*, connecting and directing the Work towards the Sources of Life, its realization will follow in due course, according to the progressive *resonance power* of us-humanity to the celestial energies or Ideas, to the *Fiery World*.

With such a humble attitude, humble as adherent to the service of the Earth to Heaven, *burning with ignorance* and joyous dedication, let us work as if we were *builders of the Future* (and we are co-creators), as active *units of life* of the Solar System and infinite Space, such creatures driven by the unstoppable will to collaborate harmoniously with the macrocosm.

"*Who is well oriented is the Way.*"

*

According to the indications of the Teaching,³ this work of *ideal* composition at the *level of causes* (higher mental) must be constantly loved and held in the light through the *creative imagination*, as well as *vitalized* in the 'third eye', "with united breath and unified rhythm" with the higher *Septenaries* and in agreement with the heavenly cycles.

Following the Plan therefore involves, for us Humanity as well as for the planetary *Hierarchy*, following the planetary Rhythms or Breaths as well as the motion and psycho-geometries of the *solar Plan* set up on the Ecliptic:

- in the *lesser* planetary Breath (*day*), the *world group servers* can *accumulate energy at each rotation of the Planet*. They/we assert the *Plan of Love and Light* daily (unison rhythm), according to our Ray focus or ashram.
- In the *greater* Breath of the Planet (*year*), the *most favorable Dates* for the entry and reception of cosmic and solar energies are the **solstices** and **equinoxes**: in this planetary Heart Cross *the planetary Order asserts the Plan of Love and Light* at the 4 corners of the circle, of Space, of the world;⁴ new and full moons are then fundamental for the precipitation at the level of consciousness and Form, etheric and physical.

Here are the 4 solstitial and equinoctial Formulas (heliocentric/causal) of the basic relation Sun/Vulcan-Earth (Soul-Personality) for 2021:⁵

Formulas of the 4 discontinuities of the Goal 5.7-2021

December Solstice
Incipit Vita Nova! (A new life begins!)

March Equinox
May the new alliance of the World Servers be affirmed

June solstice
May human consciousness ignite in the Great Service

Autumn equinox
May the Planetary Order assert the Culture of Infinity

³ See pages on the Construction of the thought-form in A. A. Bailey, "A Treatise on Cosmic Fire", "Rays and Initiations" and "White Magic", Lucis Collection.

⁴ See the 7th and 8th chapters of the document [Asserting the Planetary Plan](#).

⁵ To pursue further the 'celestial reading' and *follow* the path and Formulas of the Seven sacred Luminaries during the 4 quarters of cycle of the year, you can request the relevant documents or find them published on TPS in the 'working direction' [Signs of the Heavens](#).

- At the *systemic* level, the precious Dates for the qualified spatial relationships between *man-planet-sun-cosmos* are the Directions drawn by the axis **Sun/Vulcan-Earth** with respect to the other solar **Luminaries** and some primary **Stars/Constellations**, as well as the 'compound cycles' between Planets (mainly Their conjunctions).⁶ These Days are the most propitious to assimilate the **Seven Rays/Ashrams energies** and 'to carve Their paths' into humanity: *the seven ashrams of the human Order "do not lose the dates" and well orientate toward Heaven and Future.*

In particular, in the current Cycle of construction, or first beat of 49 years (1987-2035) of the Planetary Plan of 49 Goals -- *Goals* deduced from the occult Teachings and foreseen for the evolutionary and conscious advance of humanity and the planet in the current third millennium --, 2020 corresponds to the phase **5.7 – Creative Liturgy of the Group and of the Work**⁷ (each year corresponds to the assertion of the corresponding Goal and to its sowing in the human group consciousness):

Let us therefore orient the Work of building the New Culture to the fiery Rhythms of Heaven, ever more consciously, so that the human group can advance according to the solar and cosmic Liturgy.

May the vital and spatial Order of the **Seven Rays** and their *Agents of Transmission* guide our evolutionary advance more and more powerfully.

⁶ See further the **solar Ephemerides**.

⁷ 5.7 corresponds to the current 7th year of the 5th septennium of the first 49 cycle of this *hierarchical human prototype* (started in 1987 = Vortex/Goal 1.1). See [Asserting the Planetary Plan](#).

*

As presented, the Work of **Assertion** in the "here and now" and of rhythmic **Activation**, follows the celestial Rituality according to the two Breaths or Cycles of the planetary Logos, the Day and the Year, which are relative to the states of consciousness of "*I am*" (diurnal planetary rotation around the polar axis or spine, analogous in the microcosm-man to the "vertical" direction of individual will) and of the "*I am That*" (annual revolution around the Sun/Major Center, analogous to the solar or group consciousness):

*"All planetary life is supported and guided by two overlapping rituals, the daily and the annual ones. They intermingle and are simultaneous, and it would be difficult to say which is the major and which the subordinate. The contemporary is a constituent of both past and future which reveals the inconsistency of the common conception of time."*⁸

The coordinated action of *The Planetary System*, in order to support the *causal building* of a *Planetary Order Prototype*, can thus *intensify and substantiate* the creative spiral of this *causal Sowing* (ideal Formulas), as it is *well oriented* to the rhythmic Breaths or Cycles of the planetary Life "in which we live, move and are":

*"Churning is a symbol of cosmogony. He who has accepted so simple a process as the symbol of a great action, has verily understood the correlation between microcosm and Macrocosm. On the physical plane spiral rotation is the basis of the accumulation of substance, and thought also acts in an identical way. From the Summits down to chaos, Space is intensified by the spirals of consciousness. Thought spirally transforms itself into substance, permeating all Cosmos. One must understand and accept the transformation of thought into substance. This welding preserves the supply of substance, for thought is inexhaustible. On Earth much benefit may be reaped from the realization of the substantiality of thought."*⁹

Oriented, therefore, to *knowingly build* the Future, to learn the *art of composing the causes* on the higher plane of Mind as to encourage the realization of a new solar Culture on Earth, "burning with ignorance", let us **imitate** the Higher Builders, following them in "united breath and unified rhythm".

In this way, we begin a process of progressive and orderly **identification** with the celestial Model, which will lead, in due course, to the monadic **identity** of the "*That I Am*", when our Consciousness, now planetary, will be *hierarchical*, or able to *cooperate in a coordinated or systemic way to the evolutionary Purpose*.

*

⁸ From: E. Savoini, "[The Distant Goals](#)", Goal 7.1.

"...time and space are simply forms of ideas to express the cyclic activity of an entity."

"Out of manifestation time is not, and freed from objectivity states of consciousness are not."

"Time has been defined as a succession of states of consciousness". (A. A. Bailey, "A Treatise on Cosmic Fire", 1925, "Lucis" Collection, p. ingl. 281, 63, 278).

See also "[From linear to cyclical time](#)" in the [Documents](#) page of TPS.

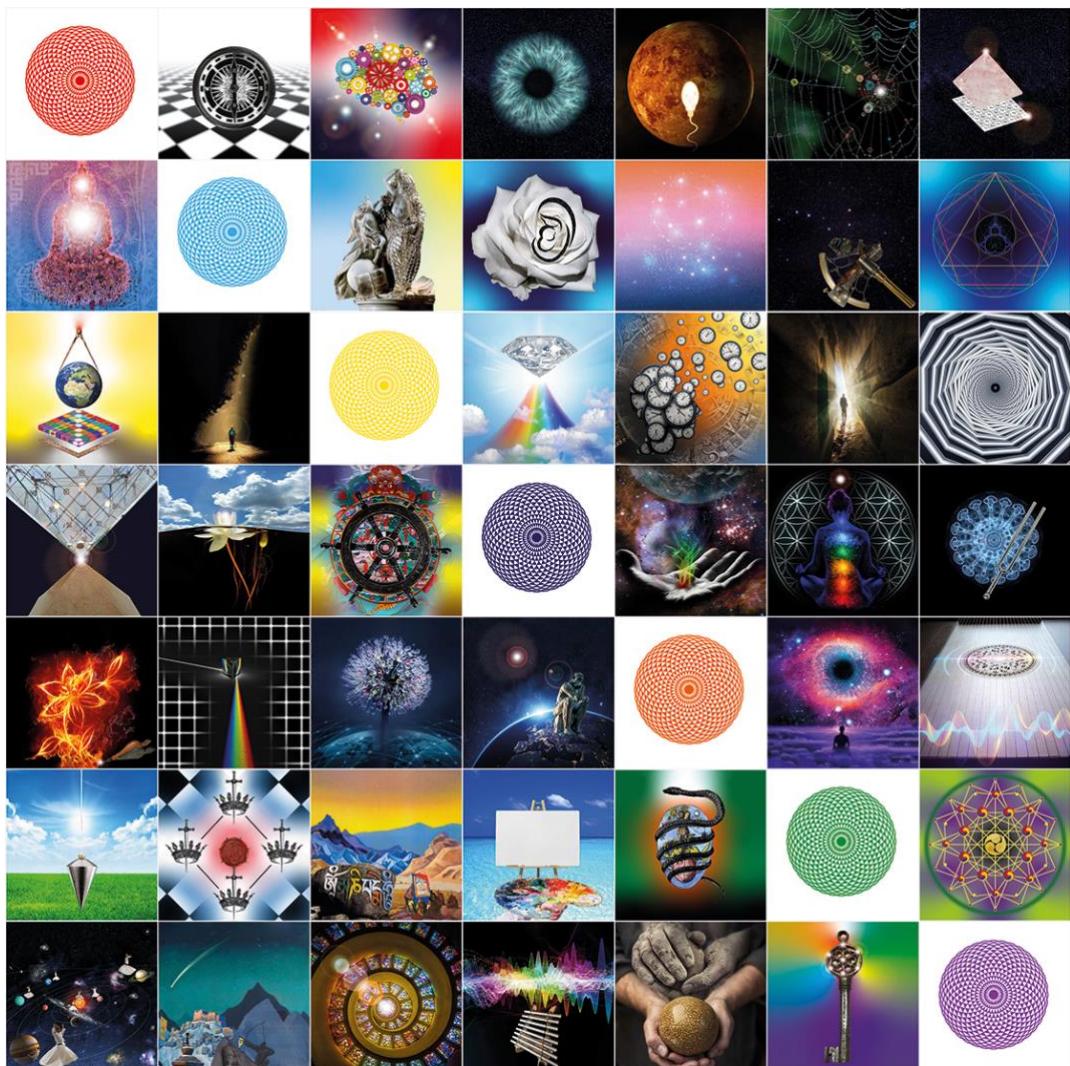

⁹ From the AGNI YOGA Collection, Fiery World I, § 646, New Era (ed.)

The Earth is part of a Solar Fleet that sails in harmony on the seas of the ecliptic ring, the Common Plane/Plan. It is up to us *to follow its solar steps to reveal the evolutionary Purpose*.

Let us take our Blue Planet as an example and become worthy of the Solar Project, of our beautiful *Cosmic Abode*.

Let us sow the Principles and build the Thought-Form of the new solar Culture and Civilization.

Let us become *solar: suns* or *hearts* in concordant advance towards a tomorrow where smiling will inhabit the face of every human being and the *Cult of Light* will be protected from all ugliness.
