

Signs of the Heavens year 2026 – 2nd Quarter of Cycle

We have reached the second beat of the 2026 Cycle, which extends from the upcoming Equinox (**March 20, 2026, 2:46 pm UT**) to the June Solstice.

As presented in the [December 2025 Solstice document](#), in this year 6.5 we have dedicated and oriented our reading of the Heavens to four Energies and Symbols fundamental to the evolution of Consciousness. After attuning our aspiration and creative thinking to the supernal Energy of *Love*, we now assert *Harmony*, the Ray or Quality of our [Fourth Human Hierarchy](#) and the evolutionary method of the Fourth Human Kingdom (**4th Ray of Harmony through Conflict**).

This *Union through struggle* dominates the equinoctial Heaven of systemic Causes (heliocentric level): as at the last solstice, **Mercury (4th Ray)** is in fact triumphant in its Sign **Scorpio** (He is its hierarchical ruler or *Magister Musicae* of the 4th human Hierarchy), which also transmits the pure 4th Ray.

In Harmony lies Victory

Victory lies in Harmony, and Mercury's trine to Mars (another ruler of Scorpio) in Pisces provides Solar Warriors with the *self-sacrifice* necessary to heroically build Beauty, Goodness, and Truth, *despite everything* (square to Pluto).

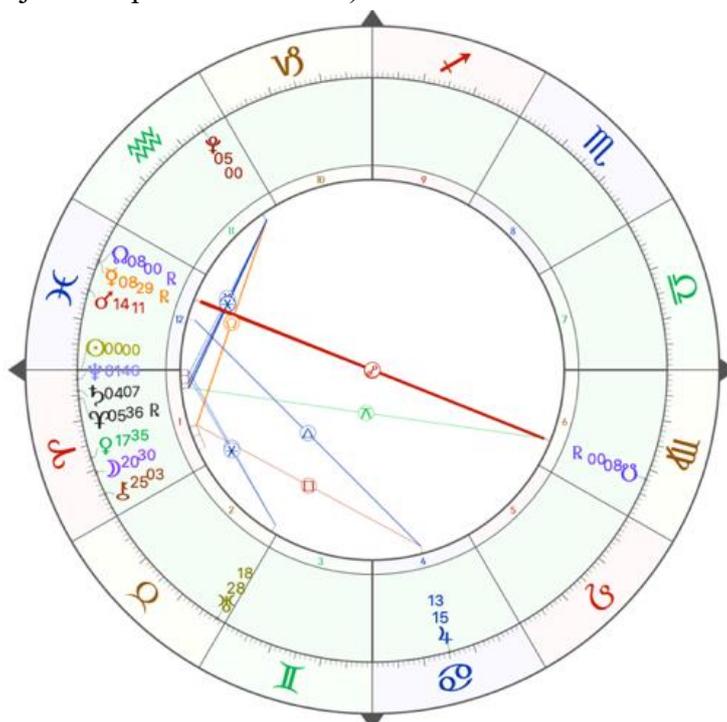

We fight ugliness, evil, and falsehood by building Beauty, Goodness, and Truth.

Our **Earth** (which in these charts stands for solar [Humanity](#) or for the [planetary Disciple/Server](#)) is in direct line with the very powerful *Call to Renewal* of these times (being *opposite* to the great **Saturn-Neptune conjunction in Aries** - [heliocentric on December 11, 2025](#) and [geocentric last February 20](#)), and in a triangle promoting *synthesis* with the other two great Reformers and Promoters of the evolutionary advance of Consciousness: of a new Renaissance **Pluto in Aquarius** (in tension with Mercury), and of a new accelerated Rhythm in the relationships **Uranus in Gemini** (in tension with Mars).

The solar Master of Wisdom **Jupiter** sextile from **Cancer** nourishes the Earth/Solar Humanity with the energy of *Inclusiveness*, the unification of all visions and aspirations toward the Common Good (Jupiter's quintile to **Venus in Taurus**).

The intense interplay of Solar Forces now erupts into the planetary field through the electric Fire of

Aries, the *Homeland of Ideas* (Earth's *equinoctial* perspective in **Libra**, with the apparent Sun entering Aries and conjunct Neptune and Saturn).

Incipit Vita Nova! (A New Life begins!)

From a geocentric perspective, which teaches where and how to precipitate evolutionary causal energies, **Aries 2026** is indeed extremely powerful due to the co-presence, in addition to the **Sun**, **Neptune** and **Saturn**, of **Vulcan**, **Venus**, the **Moon**, and **Chiron**.

We could summarize this *stellium* with a formula: *only the mind illuminated by the power of Love can transform the world through the fiery power of Ideas* (Mercury, esoteric ruler of Aries):

“... Only a tested consciousness understands the value of the seed of reality. Rulership is not in crowns nor in crowds, but is in the cosmic expanse of ideas. Thus, the Teachings of life complement each other, having no need to attract multitudes. ...” (Community § 84)

Are we *ready* to serve the Supreme World of **Harmony**?

Are we *ready* to unleash the creative power of Wisdom, the power of group consciousness to *make all things new*?

“Certainly the power of Hierarchy is the most vital, and only by this bridge can one build. Thus, in the foundation of each great beginning is laid the energy imbued by the law of Hierarchy. Only upon the principle of harmony and unification can one build. Only upon the basis of affirmation of the principle of Hierarchy can higher possibilities be affirmed. The Creative Will proclaims that a united consciousness leads to harmonious decisions.” (Agni Yoga § 662)

“Constant readiness is a quality which needs to be developed. Readiness is not a nervous transport, it is not transitory tension. Readiness is harmony of the centers, always open to perception and reaction. The man who is filled with harmony is always receiving and always giving. His being is always strengthened by an uninterrupted current. There is no giving without receiving. To break such a current is the death of advancement. The all-knowing one will also be all-giving. Let us understand this truth broadly, not setting limits by earthly conditions.

A law exists according to which receiving must not be construed as an accrual of personal property.

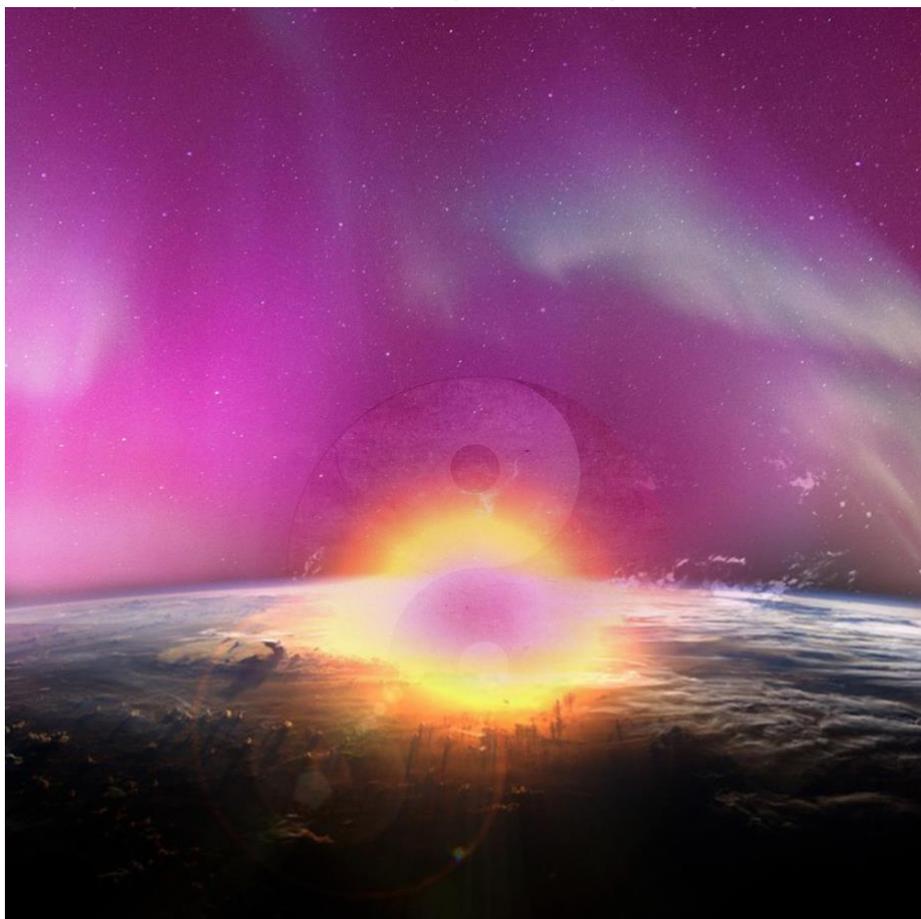

Realization of such a concept can take place in the heart. No false assurances will deceive the heart. Strengthening of psychic energy produces firmness. Constant readiness is the product of a healthful psychic energy.” (Aum § 580)

“... The Thinker said, “He who does not know the ways of Beauty will not dare to turn to the Divine Heights.” (Supermundane II § 426)

“The achievement of the spirit consists in that amidst earthly difficulties and struggles the spirit develops the higher striving. The spirit cannot become affirmed amidst conditions of well-being or abundance. Therefore the co-workers can prove the strength of their spirit and striving amidst daily labors and difficulties. How could one attain the highest state, attain refinement of consciousness, without spiritual labor? So many blessed cares are on the path of purification of consciousness! Each action which rends the spirit from earthly desires is a higher affirmation. The path to the Fiery World leads through the labors of spirit, through earthly privations; and highest achievements come through departure from earthly manifestations in quest of the higher ones. Thus, when it is said, “*the achievement of spirit will be with those who have known the struggle and search for knowledge,*” it means this will be a fiery attainment. Thus let us remember upon the path to the Fiery World.

... we must inevitably arrive at the victorious crowning through Beauty. One should become accustomed to the realization of the victorious crowning. Such thinking will bring one to the Fiery World.” (World of Fire III § 37 e 23)

In Harmony lies Victory

Incipit Vita Nova!

“The spirit impelled by the Cosmic Magnet is linked with the great action which builds the manifested and affirmed Universe. This unison leads to the highest harmonization. The spirit which seeks to destroy the link with the Cosmic Magnet by creating its own petty world digresses from the path which leads to Infinity.

All manifestations of the human spirit react upon cosmic magnetism. All manifestations of the Universe evince interdependency. All luminaries depend upon an attraction which is reciprocal. Understand that everything is held together by the Magnet of Cosmos!

Thought attracts a corresponding action. A benevolent inception attracts a corresponding solution. And the awaited victory is destined for the spirit which strives to the current of cosmic magnetism.” (Infinity I § 130)

“... "Wisdom in all," recalls the Hindu. "Cooperation in all" will be added to this in the Age of Maitreya. Not only by command, not just by harmony, but by the lightning-bolt of directed thought are the co-workers united. ...” (Agni Yoga § 101)
